

Fan Lamp Controller Specifications

Product Introduction:

This product uses 2.4G wireless digital remote control technology, remote control one-to-one control, simple and convenient operation, strong anti-interference ability.

Technical Parameters:

Model: 2.4G AC fan light controller

Wall switch sequence:

full light/white light/yellow light

Input voltage:

AC200V – 240V 50/60Hz

Output voltage: DC90 – 200V

LED output power: 25–50–80W

Motor rated power: <25W

Wind speed: 1 – 6 gears

Timing: 1 hour / 2 hours

Receiving method: RF2.4G

Remote control distance: 8–20 meters

Remote control battery: No. 7 1.5V X2

Remote control matching code:

Turn on the power and Press and hold the light pairing key within 5 seconds of the light on, When you hear a beep or a light flashes, the code match is successful. If you need to match the code a second time, you need to wait 30 seconds before turning on the power and repeat the above operation.

CAUTION:

The electronic switch is not an isolated product and needs to be operated by professional personnel during installation.

The electronic switch is triggered by the remote control, and the wireless frequency of the remote control transmitter is 2.4GHz.

APP operation

1. Download the APP scan the QR code → open the browser → select the version to download
2. Open the APP → select a room → Click on  → select "fan light" → enter the equipment name (such as fan light) → OK

3. Click on  enter

1. Language (Chinese and English can be selected)

2. Scan (scan the other party's QR code to share device control)

3. My QR code (you can share it with the other party)

4. Room management (room name can be added)

5. Instructions (Choose the second interface fan light, instructions for using various symbols of the device)

6. Check for updates

7. Feedbackpoint to enter

APP button function description:

1.  Code matching button (click this button within 5 seconds of turning on the light, such as the light source flashing or the buzzer "di", it proves that the pairing code is successful; if the pairing code fails, repeat this operation).
2. After clicking, you can choose a time to turn off the device regularly.
